

Breakthrough Creativity & Innovation Skills

This is a one of a kind, state of the art training in creativity that will put your team in an unusually creative state . . . and keep them there as they solve old familiar problems in new innovative ways!

This workshop is a dynamic one of a kind creativity experience. Specific processes for accessing the creativity patterns are covered in detail. Everyone is invited to participate and join in as a brainstorming and creativity session par excellence unfolds!

The result is a refreshing new way of solving problems and a breakthrough in both the number and quality of new ideas and solutions.

The training has had a profound effect for several organizations and led to breakthrough's in sales, marketing and company strategy. Participants come away with an expanded perception of what is possible, a new way of looking at old familiar problems and difficulties as well as an improved ability to solve problems. This unique workshop often results in innovative ideas with bottom line results.

In this session we'll apply a heightened state of creativity to your specific challenges and current obstacles in an upbeat 'round robin' session. In this module, your trainer will be using a set of methods for keeping the group in the elevated creative state that's been created. Various situations are brought up as people solve and generate new ideas and potential solutions to them in their heightened state of creativity.
