

# PROJECT MANAGEMENT FOR NON-PROJECT MANAGERS

FOR PROJECT STAKEHOLDERS AND TEAM MEMBERS  
WHO WANT TO SUCCEED TOGETHER

## Who Should Attend

- Business Sponsors of projects
- End users who want their project requirements fulfilled
- Subject Matter Experts (SME) such as auditors, compliance and HR
- We encourage project managers to attend with their key stakeholders as well as project team members.

These are challenging times. Demands are growing. Yet resources are constrained and timeframes limited.

Project sponsors, end-users, subject matter experts (SME), managers who manage people with projects and project team members all need to understand how to contribute to the success of projects.

Workshop facilitator (of Humansense.com Inc.) Harry Mingail (PMP, CBAP, PMI-PBA, LSS, Math/Comp Sci, Bus) brings 30 years of project management, business analysis, portfolio management and management consulting, is the author of several books, audios and videos (see [www.amazon.com](http://www.amazon.com)) and has delivered more than 500 workshops to companies and universities in North America, Europe and Asia.
